The STEYR ABSOLUT CVT series with up to 302 hp

THE **ABSOLUT** EXPERIENCE

Your partner to rely on.

STEYR TRAKTOREN

LEADING **TECHNOLOGY** FOR FARMING LEADERS

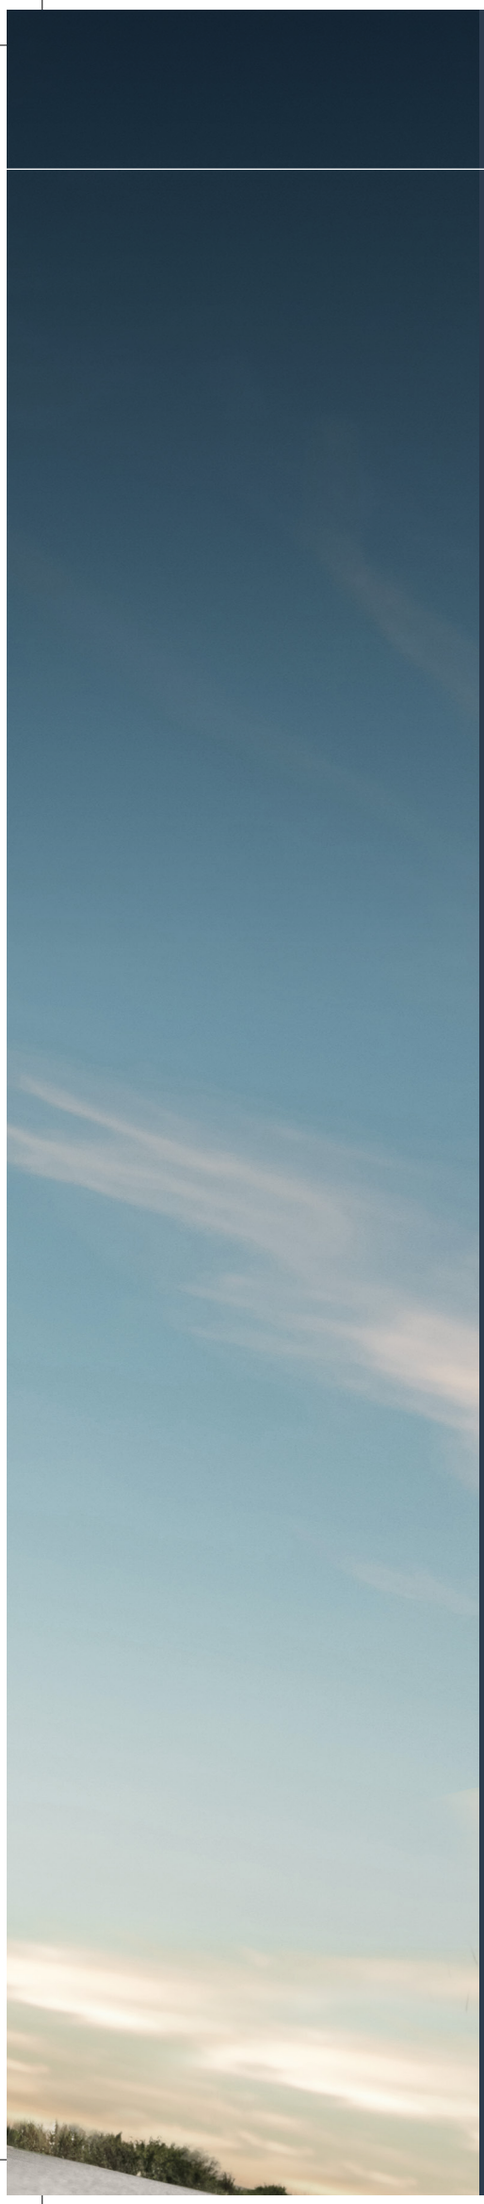

Just as your business is unique, you need the unique balance of power, comfort and technology to increase your output with the same input.

The result: ABSOLUT CVT, ready to raise your potential

The new STEYR ABSOLUT CVT tractor series sets new standards in modern agricultural machinery. Enjoy the new ABSOLUT CVT soundproofed cab with spacious working environment, 302 hp engine power in a compact frame, big tyres and the latest onboard connectivity. Whether you are a driver or a fleet manager, our flagship models tick all the right boxes for the highest demands in terms of productivity, comfort and cost of ownership reduction through technology.

[2] PowerPlus is only available during hydraulic, mobile PTO and haulage applications

The art of maximum comfort

With only 66 dBA noise level, it's even easier to enjoy silence, space and top comfort in your new office in the field. Alongside the new Infomat 1200 monitor and the new A-pillar display, the semi-active suspension control associated to the new advanced vehicle suspension gives you an incomparable level of daily work comfort.

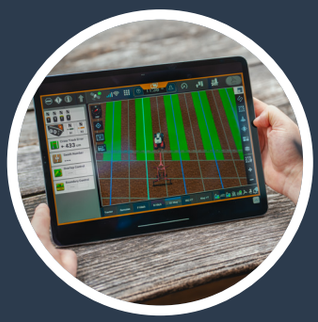

Get the performance you deserve

The innovative FPT NEF 6.7 l engine with up to 302 hp provides you with maximum power and ultimate productivity in the field. To deliver this power, the e-VGT provides excellent engine torque characteristics over a wide band down to 1,300 rpm. New larger axles and 2.05 m rear tyres ensure traction without compaction. While on the road the GVW has been increased to 15 t.

Exclusive fuel tank and storage area

Optimise your time in the fields thanks to the 470 l, 15% larger than the previous generation. To keep you farming, we have also integrated an optional hand-washing tank and a toolbox with slide cover to allow easy access and minimise cab clutter.

One step ahead in the future of farming

With S-Fleet, you can access all your fleet data: see where your machines are and how they are performing to make on-the-go adjustments. You can also work proactively with your dealer using remote screen sharing so that he can quickly identify issues and suggest changes to optimise your productivity.

THE ABSOLUT. THE **BEST**. IN EVERY ASPECT

New cab enlarged by 8% with cooled storage compartments, a powerful HVAC, premium sound system and engine stop/start button.

Made in Austria – 75 years of expertise to provide you with quality tractors that you can rely on in all situations.

A cab that cares for the operator's wellbeing with lowest in the industry noise levels of just 66 dBA.

New Multicontroller III armrest, new Infomat 1200 monitor, new A-pillar display and connectivity features.

Semi-active suspension control associated to the new advanced vehicle suspension provide first-class comfort.

Innovative FPT NEF 6.7 l engine with up to 302 hp maximum power increase productivity in the field to boost your business.

Customisable transmission settings based on personal preferences deliver an excellent driving experience.

The STEYR signature styling with powerful 24 LED lights enhance visibility and reducing strain on operator's eyes especially late at night.

Active hold control for stopping on a steep slope without using the brakes.

Headland management Easy-Tronic II for the automation of work operations, dependent on time and distance covered.

Four rear and 1,000 speed front PTO with Power mode or with the fuel-efficient engine speed in ECO mode.

Maximum rear lift capacity of up to 10,464 kg and 5,812 kg at the front.

Patented trailer brake system S-BRAKE represents a major advance in tractor stability for the driver.

New colour coded rear remotes configurable on the Multicontroller III and on the armrest.

Larger 1.40 m front tyres and 2.05 m rear tyres available with latest VF technology delivering bigger footprint.

The 6280 ABSOLUT CVT supports ISOBUS II and ISOBUS III.

S-Tech Precision Farming: fully automatic turning with S-GUIDE and S-TURN II.

S-Fleet lets you remotely monitor and manage your farm, fleet and data.

ABSOLUT CVT.
ALL YOU NEED IS MORE

Well equipped

Your ABSOLUT CVT is available in three equipment configurations for convenience. Custom, for the a la carte approach, and Evolution and Excellence that configure the best ABSOLUT CVT options conveniently. You can quickly select the features that matter to you.
The equipment packages can be changed by STEYR without prior notification. Please contact your local dealer for the latest configuration.

Evolution

Evolution in comfort and performance for the customers
The front linkage is a standard feature with Evolution and allows you to quickly add and remove ballast and, for further productivity, add an additional mounted implement.

Excellence

High-end performance and superior operator comfort features
The STEYR cab suspension is standard with Excellence and delivers a premium comfort experience.
Fatigue is reduced during long days in the field and on the road.

ABSOLUT PREMIUM

Premium comfort

The slimline bonnet provides optimum visibility over the front working area. Also at the rear, for effortless attachment of implements, the ABSOLUT CVT provides clear visibility of the coupling points. With the large, electrically adjustable and heated telescopic mirrors with wide-angle insert, you can even keep an eye on wide attachments.

FACTS

- 4-pillar-cab
- +8% cab volume
- +11% glass area
- Low noise level of just 66 dB(A)
- Sun roller blind on front and rear windscreen
- Up to 24 powerful LED worklights
- Front and rear mounted cameras for improved visibility when working with implements
- Big and fully equipped toolbox
- Convenient external hand-washing tank

The new pressurized HVAC climate control system features more vents and louvers to increase air flow around the operator. It can also be controlled directly via the encoder or the configurable buttons.

Really good looking. At day and night

Thanks to the four-pillar panorama cab with its large windows, one-piece front windscreen and high-visibility roof design, ABSOLUT CVT operators are assured of perfect and unrestricted all-round vision. In addition front and rear cameras as well as a wireless camera are available. A LED lighting package means superlative visibility is also assured after dark.
Customers can choose from four, eight or ten LEDs in the tractor's hood, front cab posts and rear fenders, plus 10 or 14 LEDs in the cab roof. With a lighting power of 2,000 or 2,500 lumens per LED, night turns into day to ensure accuracy, efficiency and safety.

STEYR has integrated useful functions into the key fob. Apart from locking and unlocking the cab with the push of a button, the new key fob also protects against unauthorized access and theft, since the tractor won't start without a recognized key.

RELAX AND OPERATE **JUST THE WAY** YOU LIKE IT

Unique cab, unique versatility

You and your employees always have a lot to do. That's why we've been thinking about how we can make your everyday work life even easier. The result is the innovative Multicontroller III armrest: it enables a fast reset of preferences when changing drivers or changing jobs and places. Everyone should benefit from this innovation: the armrest position can be adjusted in four directions to suit any driver.

1 New A-pillar display

Featuring the brand-new and unique STEYR interface and design, the A-pillar display presents all the customizable settings and controls in an easy and logical way for all drivers.

2 Free configurable

The STEYR Multicontroller III handle features reconfigurable buttons that can be assigned via the Infomat 1200 monitor. This allows you to control more of the ABSOLUT CVT and ISOBUS functions ergonomically in one hand.

3 Armrest-integrated encoder

Fully integrated in the armrest, the new encoder allows for more ergonomical driving. Intuitive and easy to use both on the road and on the field, its performances are not influenced by bumpy conditions. Home button and quick access buttons are standard.

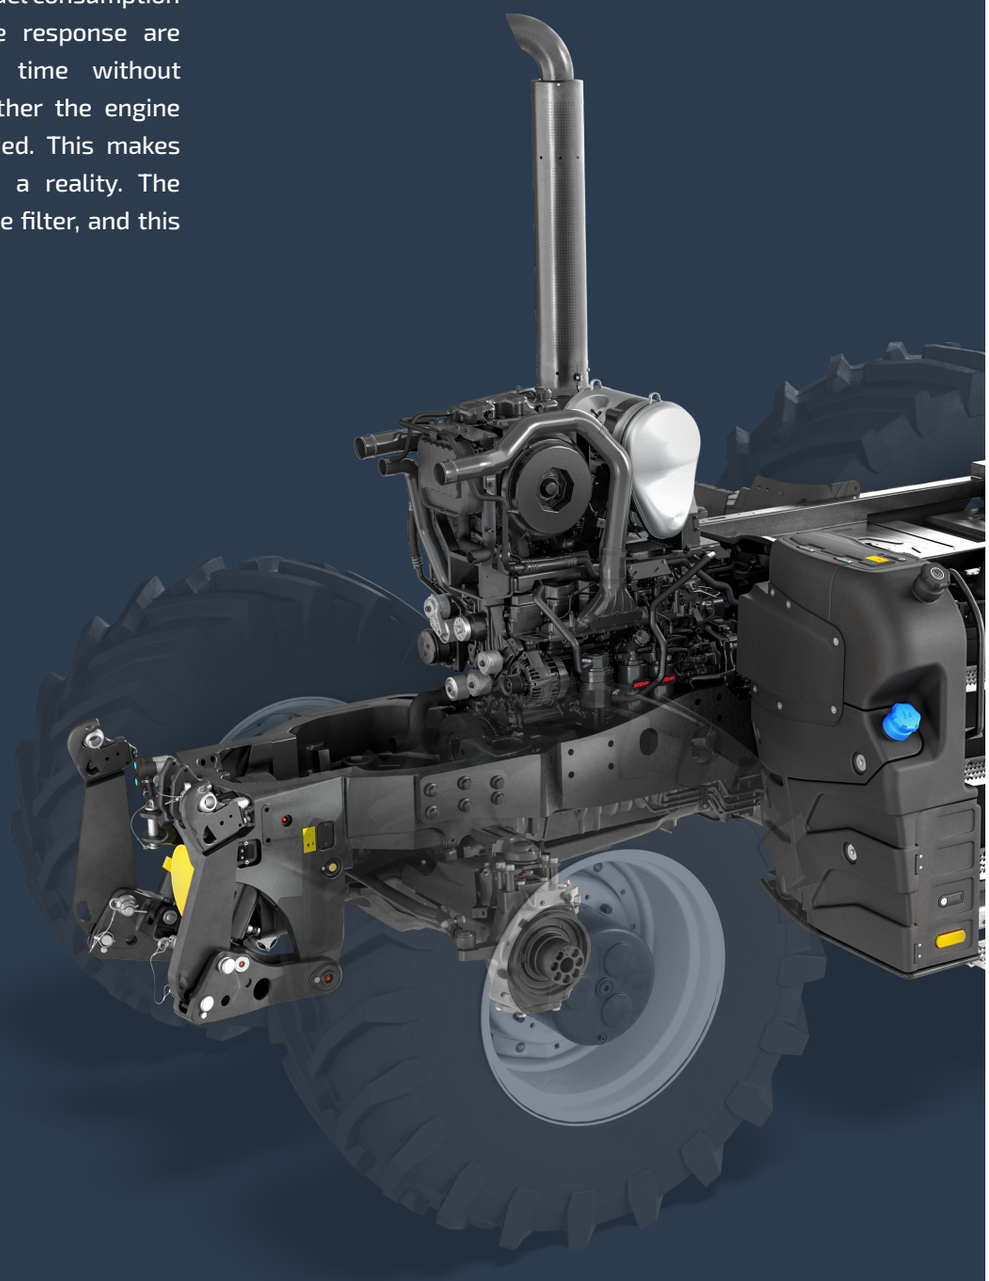

FACTS

- Infomat 1200: the integrated touchscreen colour monitor
- New A-post color performance monitor
- Ergonomic operation with Multicontroller III
- Joystick and levers to control remote valves on front and rear
- Front and rear PTO switches
- ICP – Intuitive Control Panel
- ECO-Drive™ levers
- Hydraulic settings
- ISOBUS Aux-N

ABSOLUT **STRONG**

Turbocharged six cylinder power

Power used most intelligently. The engines in the ABSOLUT CVT models are the best in their class. Here, profitability, productivity, environmental preservation and ultra-modern energy management come together in perfect symbiosis. By virtue of the unique HI-eSCR2 exhaust gas after-treatment system, fuel consumption is optimised and power and engine response are improved. Optimum fuel injection time without exhaust gas recirculation means neither the engine nor the cooling system are overloaded. This makes maintenance intervals of 750 hours a reality. The system also does not require a particle filter, and this reduces maintenance costs.

ECO DRIVE

The dual hand throttle allows the individual adjustment of the minimum and maximum engine speed, adjusting the vehicle characteristics according to the required task and minimizing fuel consumption.

1 **POWER MODE** – Pulling and transport

Full potential of the engine is available.

2 **ECO MODE** – Pulling and transport economy

With the right hand throttle lever you can limit the maximum engine speed to save fuel.

3 PTO MODE

Set the desired engine (PTO) speed with the left hand throttle lever. The right hand throttle lever determines the engine speed down to which the engine can be drooped, before the transmission reduces the ground speed.

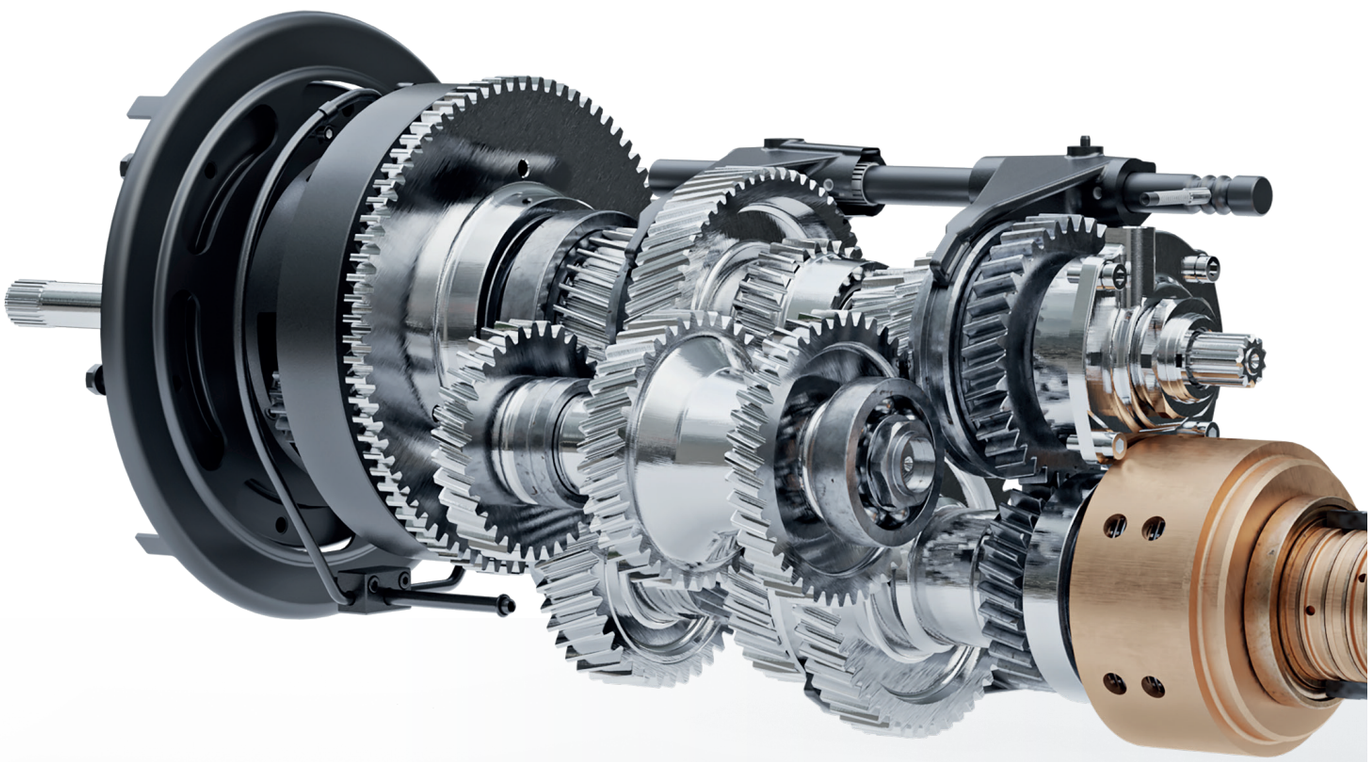

FACTS

- 6-cylinder engines with turbocharger and intercooler
- 6.7 litre cubic capacity
- Rated power output: 180-260 hp
  Max. power output: 200-281 hp
- High maximum torque with up to 1,282 Nm
- HI-eSCR2 technology from FPT fullfils Stage V
- S-TRONIC engine and transmission management
- Engine is fully compatible with hydro-treated vegetable oil, or HVO (bio-synthetic diesel)
- Up to 40% torque increase
- Extended engine service intervals (750 hours)
- Reversible fan
- Engine exhaust brake
- Up to 470-litre fuel tank to help maximise the working day
- e-VGT variable geometry turbocharger

TRUST IS GOOD.
S-TRONIC IS BETTER

CVT new transmission settings

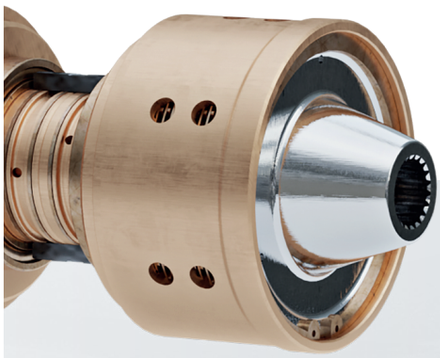

Developed by listening to customers' feedback and unique to the new STEYR ABSOLUT CVT, these customizable transmission setting allow operators to adjust, save and recall the tractor behaviour in various applications and operational situations.

S-TRONIC custom settings

Setting-up of your CVT transmission specifically designed for the different operations in the field.

FACTS

- Stepless from 0 to 50 kph
- 40 or 50 kph at reduced engine revs
- Four points of 100% mechanical efficiency
- DKT – Double clutch technology
- Kick-down functionality
- CVT custom dynamics
  - Acceleration / deceleration
  - Shuttling speed
  - Drive pedal behavior
  - Engine torque response

PRODUCTIVITY COMES **FIRST**. AHEAD IN HITCH/PTO

Fully integrated

The STEYR front linkage has a lift capacity of 5,812 kg to cope with the biggest and heaviest front mounted implements. The 1,000 rpm PTO speed option is achieved at an engine rpm of 1,895, the optimum range for power and efficiency. Attaching an implement is safer and easier via easy-to-access remote hitch switches, while the optional camera provides a live view of the implement at work.

FRONT LINKAGE

- 5,812 kg maximum lift capacity
- Seven-pin lighting and 40-A plug sockets fitted standard
- Remote operating switches for hitch operation to aid safe hitching

FRONT PTO

- Perfect integrated 1,000 rpm front PTO
- Front PTO-Management
- Progressive soft start
- Electrohydraulic engagement under load

The new STEYR S series front loaders: T Range

FACTS

- 5 models
- Lifting capacity: 2,366 to 3,076 kg
- Lifting height: 4.02 to 4.57 m
- Hydraulic self-levelling PCM standard
- Hose and wiring harness are completely integrated in the boom and the crossbar

Scam the QR-Code and get more information about STEYR S Series front loaders.

Full view

Mounted directly above the front linkage. The STEYR ABSOLUT CVT front camera gives you a real-time and comprehensive view of the front implements behaviour.

HEAVY TASKS? MAKE THEM **LIGHT WORK**

Always in good hands

The loadsensing hydraulic system of the ABSOLUT CVT is based on an axial piston variable displacement pump with an oil delivery rate of up to 173 l/min. Up to 8 independent consumers can be supplied with oil at the same time. The delivery rate and duration can be set individually for each electrical remote valve. This guarantees an excellent response behavior for all connected implements. Top links are by their nature heavy - connecting implements is easier with an improved top link fixing for better stability while a position indicator allows the operator to check from the seat. The rear PTO is available with four speeds.

REAR HITCH

- Up to 10,464 kg lifting capacity
- Improved top link fixing for better stability & position indicator
- CCLS hydraulic system with up to 173 l/min pump capacity
- Electronic hitch regulation (EHR)
- Ride Control – dynamic vibration damping
- Up to eight electronical remote valves (five on the rear, three centrally mounted)
- Power-Beyond connection

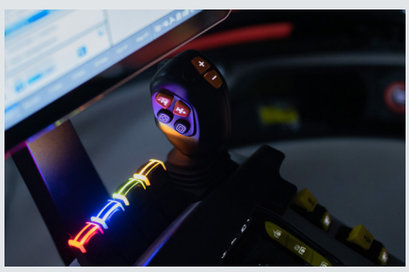

REAR PTO

- Electrohydraulic engagement under load
- PTO-Management
- Progressive soft start
- External controls on both rear fenders
- PTO-speeds: 540/540E/1,000/1,000E

Easy to reach
External controls on both fenders for easy implement connection.

New colour-coded rear remotes
All easily configurable via the Multicontroller lever and on the armrest.

Easy setup
Shortcut keys bring you directly to the settings menu to configure your Multicontroller handle.

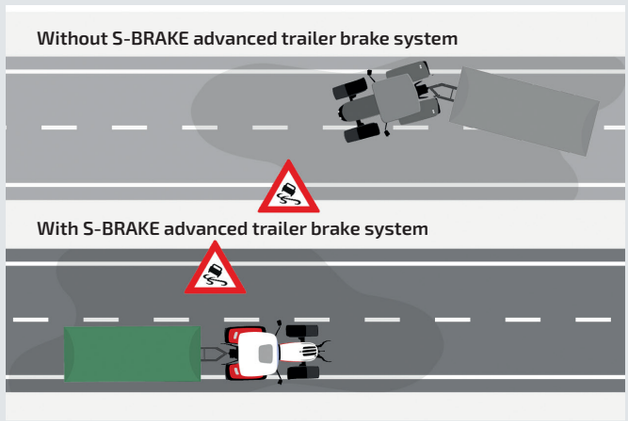

ABSOLUT ADVANCED

The ultimate in stability

The modern way of driving a tractor. The ABSOLUT CVT series offers the most complete braking system on the market, featuring the S-BRAKE trailer braking systems. All the models are equipped with wet dual disc brakes (4 disc brakes on the rear axle). The more wear-resistant HD brake disc offers a longer service life, especially when dealing with heavy transport. The new ABSOLUT CVT ensures a unique driving experience of a new generation.

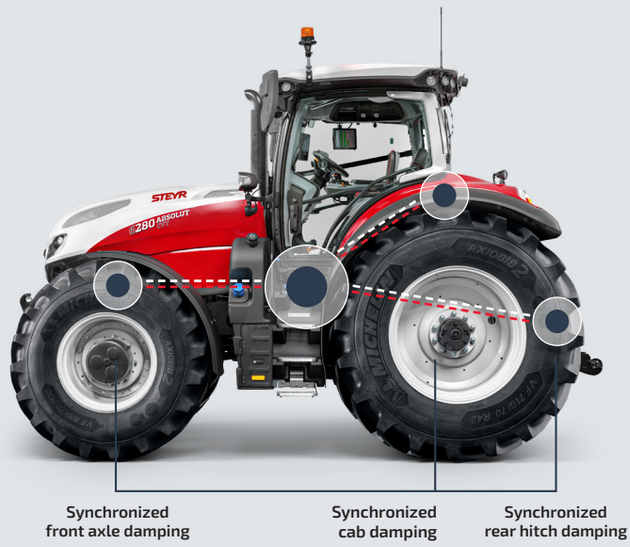

Patented trailer brake system

With S-BRAKE, the advanced trailer braking system, you remain confident even in difficult situations. The patented system recognizes the current driving situation and stabilizes the combination when braking. As a result of that, tractor and trailer stay on line.

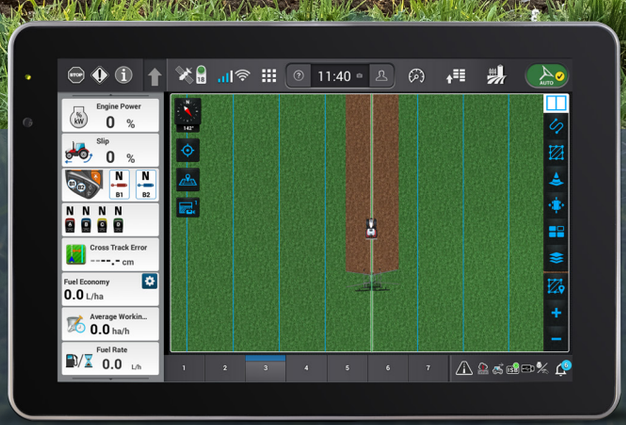

New S-COMFORT system

Specifically designed to reduce operators' fatigue in long working days, the new S-COMFORT synchronizes front axle, cab suspension and rear linkage damping. The result is the smoothest driving experience ever, both on the field and on the road.

INNOVATIVE AND ACCESSIBLE TECHNOLOGY **READY FOR YOU**

Up to 1.5 cm Track Precision

The automatic DGPS-based S-GUIDE integrated steering system assures parallel tramline guidance for work in straight lanes, on curves and in the headlands. The system guarantees 100% network coverage and uses the revolutionary X-FILL technology to bridge signal losses lasting up to 20 minutes. With a precision of up to 1.5 cm through an owned comprehensive S-Tech RTK+ network, there is no risk of overlapping even with tough ground or weather conditions. Thanks to the absolutely new Tractor Implement Management (TIM) protocol, connectivity and communication between tractor and implement are greatly enhanced, with a safer, more productive an even more precise operations.

Infomat 1200 & ISOBUS

The Infomat 1200 touchscreen monitor offers an effective control and precision guidance system for arable farming. ISOBUS II & III /TIM compatible attachments can easily be connected and controlled without additional wiring by simply using the monitor.

Lower your operation's input costs with section control

The technology will automatically switch sections on/off in areas that have already been covered to avoid overlap on passes in field, at headland turns and irregular fields shapes. This lowers your operation's input costs by eliminating double applications of seed and fertiliser.

FACTS

- Range of signal accuracies available (EGNOS, S-Tech 1, 2, 3 and S-Tech RTK+ signals)
- Optional high accuracy RTK+ signal with accuracy levels close to 1.5 cm
- RTK Fill bridges RTK+ signal gaps of up to 20 minutes
- Infomat 1200 monitor with touchscreen
- ISOBUS II & III/TIM compatible
- S-GUIDE is an integrated automated steering system
- S-Tech Precision Farming: fully automatic turning with S-GUIDE and S-TURN II

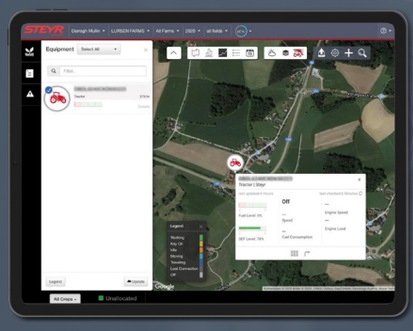

TECHNOLOGY TO KEEP YOU **AHEAD** OF YOUR WORK

S-Fleet telematic solutions

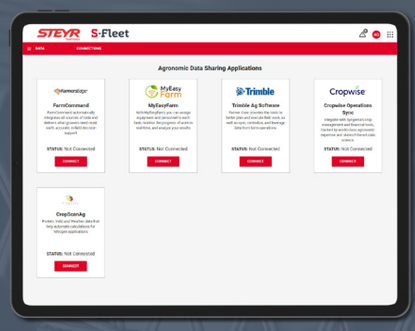

S-Fleet lets you remotely monitor and manage your farm, fleet and data, allowing you to optimise your performance, productivity and flexibility. With the new ABSOLUT CVT we are delivering to our farmers the S-Fleet Plus package, equipped with 5 years of advanced telematics, enhancing also the capability of connected service for longer periods, such as control rooms.

Keep an eye on your farm
Crop and weather monitoring
Operation control in real time

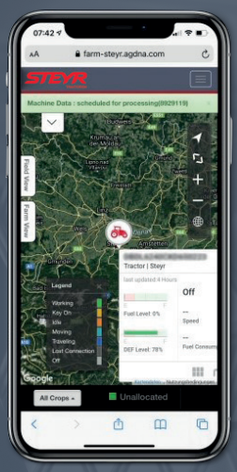

Keep an eye on your fleet
Machine tracking and monitoring
On-time notifications

Keep an eye on your data
Data sharing
Connect with 3rd party partners

Keep an eye on everything

Download the S-Fleet App and keep an eye on your operation anytime, anywhere!

mySTEYR TRAKTOREN

One place to manage all your tractors as well as your equipment and devices.

S-Fleet

Available on the App Store

GET IT ON Google Play

FACTS

- S-Fleet telematic solutions for maximum productivity in base
- User-friendly interface
- Time-saving management
- Data visualisation enhancing decision making
- Efficiently track your equipment's location and view machine parameters in real time
- mySTEYR is your destination for STEYR product support
- Solutions for mixed fleets
  - DataConnect

ALL IN ONE

Premium tractors deserve premium cares. STEYR products and services are available and operating 24/7. Now and ever.

STEYR PARTS

QUALITY DOWN TO THE LAST DETAIL. STEYR GENUINE PARTS
Our certified Genuine Parts are designed for your STEYR tractor according to the exact specifications of our engineers and submitted to the most rigorous quality tests for conformity, robustness, safety and endurance. They last longer and perform better. Overtime. We work closely with our STEYR Dealers to ensure the availability and prompt deliveries, saving you lengthy downtimes.

THE SUSTAINABLE AND AFFORDABLE CHOICE. STEYR REMAN PARTS
STEYR Reman Parts are remanufactured to the highest quality standards and come with a 2-year warranty. They are therefore 100% reliable, cost on average 30% less and the remanufacturing process saves 80% energy compared to new products.

UPGRADE YOUR TRACTOR. STEYR ACCESSORIES
With our accessories and kits, you can improve and customize your STEYR tractor to your own requirements – add a fuel preheater, additional headlights, rear cameras, control units and much more for an exclusive and efficient result.

S-Tech Protect

S-TECH PROTECT GROUPS TOGETHER THE VERY BEST OF STEYR WORKSHOP, FIELD AND REMOTE SERVICES INTO A UNIQUE OFFER.

With S-Tech Protect you get a 5-year warranty for peace of mind and cost control, you can exploit the S-Tech Connect real-time services with the remote support tools, benefit from the 24/7 Premium Service, the professional annual inspection for 3 years and a free operator training on machine delivery.

STEYR SERVICES

TECHNICAL SUPPORT

STEYR Service experts, whether out in the field, at your dealer or on dedicated customer helplines, are ready to ensure quick and efficient solutions through their deep knowledge of STEYR equipment.

STEYR Premium Service

At STEYR, we are proud to offer our customers Premium Service, with 24/7 customer support whenever you need it. You can reach us at 080078397000. Working closely with our extensive STEYR dealer network, we provide a high level of customer care and respond promptly to all enquiries, whether for general information or field service support, to minimise potential downtime.

STEYR Warranty

STEYR Warranty is the Manufacturer Extended Warranty program developed to protect your investment from unpredictable repair costs. STEYR Warranty is an extension of the Manufacturer Standard Warranty (first year), designed to support you with:

- Manufacturer warranty and best possible coverage
- Higher residual value for your tractor
- Optimization of Total Cost of Ownership
- Enhanced profitability
